NEWSLETTER
JUNE 2023
GRADE I

A dark, textured background with a central rectangular area containing text. The background is a light blue color with a repeating pattern of white line-art flowers. The central area is a dark, textured image, possibly a close-up of a rock or a similar natural surface. The text is white and centered within this dark area.

Try to learn something
about everything and
everything about
something.

Thomas Huxley

*Dear Children,
Welcome to an exciting place where you
can explore the essentials of life. Have
fun with Reading, Writing, Counting,
Creative Art, Physical Fitness, Modern
Technology.....*

The month gone by... May 2023

- 30.5.23 - Orientation Day
- 31.5.23 - 1st day of the New Academic Year

Gallery

Orientation – A well thought out orientation was conducted on 30/5/2023 to ensure safe and happy learning.

Gallery

1st Day of School – The first day of the school was a completely memorable day for the students which created memories for a long term.

The slide features decorative floral illustrations in the corners. In the top right, there is a large, detailed drawing of a flower with many petals and several leaves. In the bottom left, there is a cluster of flowers, including a large rose and a smaller five-petaled flower. In the bottom right, there is a branch with several leaves. A small sprig of leaves is also located in the top left corner.

As we look forward.....

Helpful Hints.....

Being Ready.....

Remember to carry the following things to school in the school bag, everyday

The school Almanac and a rough book.

A pencil box with 2 sharpened pencils, eraser and sharpener.

All personal belongings should be neatly labelled to avoid confusion.

Parents – something to remember.....

- Go through your child's Almanac everyday, as there may be some information.
- Circulars sent by school maybe in the form of print out or through ENTRAR.

Please do not call teachers or message them during school hours. In case of any emergency please leave a message at the front desk.

Children should wear their identity card to school every day.

If your child comes to school by own transport he/she should be in school before/at 8.10 A.M.

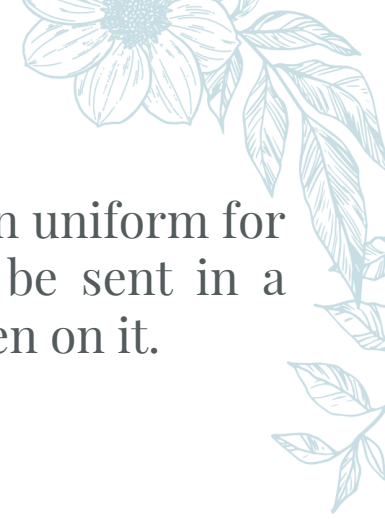

Used toys and story books could be donated for classroom repository. Please send it during the first week.

- 
- The school management software www.entrar.in contains regular updates. Do visit the website on a regular basis to know the updates.
 - Your child should come to school neatly and smartly dressed in proper uniform, everyday.
 - Send healthy food and enough water with a small hand towel in the lunch bag.

Few Points to Remember

- 
- No gold ornaments or additional accessories to be worn by the students.
 - All items need to be labeled including hoodies, shoes and stationery.
 - Do use the communication sheets in the Almanac to voice your ideas, suggestions & feedback. Kindly fill in all the details in the Almanac.
 - Parents are not allowed in the corridors or classrooms during school hours.
- 

- 
- 
- Please send 05 latest passport size photographs of your child in uniform for various activities being done through the year. This could be sent in a sealed envelope with your child's name, class and section written on it.
 - Kindly send the notebooks/textbooks covered and labeled.
 - Home review assignments will be sent at regular intervals, based on the Home Review Policy. It will be based on the concepts taught at school. Your child should be able to do them independently, with less parental involvement. In case your child has any difficulty, please inform the class teacher through the Almanac. Your feedback is valuable.

For quick queries and questions, feel free to email the Senior Mistress. If you require a longer discussion, please arrange for an appointment with the teacher.

In conclusion.....

Health Awareness....

Health Benefits of Drinking Water Stored in a Copper Vessel

Water is, without a doubt, one of the most important elements of life. Without water, there would be no life! Transparent, odourless, colourless and tasteless, water is essential for most living organisms even though it is a known fact that the liquid does not have any organic nutrients in it. The human body, especially, relies heavily on water since it uses this fluid for almost all the important body functions. 60 to 70% of our body is made up of water. What's more, human blood is 90% water!

-

Health Awareness

Advantages of using copper bottles to store drinking water

1. Kills microorganisms present in the water.
2. Gets rid of molds, fungi, bacteria, and algae.
3. Adds copper's qualities to water.
4. Neutralizes any toxins present in the water.
5. Prevents water-borne diseases and keeps our digestive system healthy.
6. Fights anemia and regulates the functioning of the thyroid gland.
7. Stimulates the brain and improves its functioning
8. Slows down the ageing process

Environmental Awareness

It's a sheer fortune that DPS Mysore is situated in the heart of a stretching, sustained and sense-soothing verdure in the lap of uncomplicated and unpretentious nature. It is a legacy that should be nurtured by our students. We make them appreciate it by making them conscious, indulge in a plethora of activities concerning nature and the environment. Using plastic free materials is a crucial step towards promoting sustainability. By opting for alternatives like glass, metal, paper and plant based materials, we can significantly reduce our reliance on plastic. Plastic free materials are more biodegradable, recyclable, and renewable, making them a more eco-friendly choice. Being the supporters of sustainability, DPSM encourages all students to use such materials on plastic free Friday's and in general.

*Let us have a wonderful year of
learning and fun!!!*
