From the teacher's desk

Our aim as a part of DPSM is to impart education that adheres to create better world citizens. Our goal is to unite and build a dynamic education system which is innovative, diverse and compassionate towards molding lifelong learners. The process involves our positive approach towards young minds. We intend to go beyond the books by creating a society of learners where students are being constantly challenged by teachers as well as their peers so that they outshine in every aspect of their life. Our focus is to ensure that every child has an independent vision. This will help them transform their activities and take onus of their vision. We encourage possibilities for everyone through integration of teaching and learning, that leads to a holistic development; this is beneficial to adapt to the diverse and ever-changing world.

Health Tip

Makhana is rich in antioxidants and contains several amino acids that may have anti-aging properties, such as helping promote skin elasticity and skin health.

Roasted Phool Makhana

Heat two tablespoons of ghee in a deep bottomed pan or skillet.

Roast the makhanas in ghee on low flame.

Keep the spice powders and salt ready on a plate.

Once the makhanas turn crispy, add the remaining ghee and mix well.

Add in the turmeric and black pepper powder, mixing them well.

Turn off the flame immediately and transfer the roasted makhanas in a plate, allowing them to cool.

Once cool, store them in an air-tight container.
