# Health Tip

The background features a soft-focus image of a hand holding a lemon, with a circular arrangement of various spices in the center. The overall color palette is warm and natural, with shades of orange, yellow, and green.

Take one cup of milk. Now add 2 small pieces of cinnamon or one-fourth tablespoon cinnamon powder to the milk. Heat the mixture and allow it to boil properly. In the end, after straining the milk add some honey for taste. This drink is good for cold and cough. Adding cinnamon to warm milk provides a good amount of antioxidants. You can get relief from symptoms of cold and cough with this drink.
