*In Conclusion.....*

# Health Tip

*Good-for-you sweet potatoes are loaded with nutrients, and they make for a delicious side dish no matter the occasion. Serve up this Sweet Potato Hash at Christmas...*

Add butter/oil, sweet potatoes, bell pepper and spring to a large skillet. Cook, stirring occasionally, until just beginning to soften, about 10 minutes. Stir in 1/2 cup of water, salt, paprika, cumin and garlic powder. Cover and cook, stirring occasionally, until the potatoes are mostly tender, for 8 to 12 minutes.

Uncover and increase heat to medium-high. Cook, stirring occasionally, until potatoes are tender. Garnish with some spring onions and serve.

# Environment Sustainability

*We at DPSC believe that, practicing environmental sustainability in schools is crucial for fostering a culture of responsibility and stewardship among students. School plays a pivotal role in shaping the attitudes and behaviors of future generations towards the environment.*

*One effective way to promote sustainability is through integrating eco-friendly practices into daily operations, such as reducing waste, conserving energy and water, and promoting recycling.*

*Implementing environmental education programs and initiatives can also raise awareness about pressing environmental issues and empower students to take action.*

*As advocates for sustainability, DPSC encourages all students to utilize materials that are plastic-free on the 2nd Friday of every month and also as a general practice.*

*Team DP&M wishes you...*
