Health Tip

Good-for-you sweet potatoes are loaded with nutrients, and they make for a delicious side dish no matter the occasion. Serve up this Sweet Potato Hash at Christmas...

Add butter/oil, sweet potatoes, bell pepper and spring to a large skillet. Cook, stirring occasionally, until just beginning to soften, about 10 minutes. Stir in 1/2 cup of water, salt, paprika, cumin and garlic powder. Cover and cook, stirring occasionally, until the potatoes are mostly tender, for 8 to 12 minutes.

Uncover and increase heat to medium-high. Cook, stirring occasionally, until potatoes are tender. Garnish with some spring onions and serve.

Environment Sustainability

We at DPSC believe that, practicing environmental sustainability in schools is crucial for fostering a culture of responsibility and stewardship among students. School plays a pivotal role in shaping the attitudes and behaviors of future generations towards the environment.

One effective way to promote sustainability is through integrating eco-friendly practices into daily operations, such as reducing waste, conserving energy and water, and promoting recycling.

Implementing environmental education programs and initiatives can also raise awareness about pressing environmental issues and empower students to take action.

As advocates for sustainability, DPSC encourages all students to utilize materials that are plastic-free on the 1st Friday of every month and also as a general practice.

Team DP&M wishes you...
